

Most old people must give the bowels gentle, constant help. One candy Cascaret each day does that. Harsh physic, taken regularly, makes the bowels callous. Cascarets do not. Nearly all old people now use this natural, gentle help.

MONTPELIER.

Farewell Social for James E. Davidson. Art Store Changes Hands.

Thirty members of the Montpelier branch of the National Electrical association, with their friends, met last evening at their rooms in the Blanchard block for a farewell social in honor of James E. Davidson. A musical program was rendered and at its close F. O. Wedge, in behalf of the association, presented Mr. Davidson an amethyst ring. The recipient responded, and then a smoke talk and game of whist were enjoyed.

An original pension of \$12 a month has been granted Mrs. Mary Reor of this city, beginning February 28, 1910.

Benjamin E. Libby of Montpelier and Miss Lucy J. Colburn of St. John, N. B., were married last evening by Rev. S. F. Blomfield.

A representative of the Spanish war veterans from Boston will be here soon to meet veterans of that war living here, to talk over plans for forming a club.

It is probable that, in the near future, Montpelier will have a council of the United Commercial Travelers, and an organizer will be here shortly to see about the matter.

C. O. Ormiston, the landscape gardener, who has been filling in the cavity in the trees in the yard of the State House, completed his work yesterday. The work took two barrels of cement and a large quantity of sand. Some of the cavities were very large, and they were painted over to make the repairs less conspicuous. Governor Prouty inspected the work yesterday and was much pleased with the result.

The state Y. M. C. A. convention opens at 4:30 o'clock to-day in the chapel of Belknap church. Delegates began to arrive last evening, but the greater part of them came this morning. At 8 o'clock this evening a banquet will be held at the Pavilion, preceded by a reception in the upper parlors of the house. Charles R. Drum, one of the international secretaries of the Y. M. C. A., will be one of the speakers at the banquet, also ex-Governor F. D. Prouty and F. W. Ober, editor of "Association Men," as well as remarks by local speakers.

Children, grandchildren and great-grandchildren gathered yesterday for the observance of the 85th birthday anniversary of Mrs. Francis Butterfield, one of the oldest residents of this city. She has six sisters living, the oldest, Mrs. Josephine Dudley, being 91 years of age. Mrs. Butterfield has excellent health and appears not over 60 years of age. She was the mother of twelve children, three of whom are living—Mrs. Marshall Laviolette, Henry Butterfield and Joseph Butterfield. She received many beautiful gifts and a shower of postals during the day.

Unexpected success has resulted from the blasting in process at the State House, from the beginning. Yesterday it was necessary to blow a hole through the thick stone at the rear of the building and into the bird room for a vent, and, although but a few feet from several cases, it was accomplished without a mishap of any kind. Dr. H. D. Holton of Brattleboro, secretary of the state board of health, has recently inspected the heating, plumbing and ventilating apparatus being put into the capitol and would say nothing as to what he thought of the improvements. He thought he could judge better after the work had been completed. The changes are progressing very favorably.

Due to close confinement to business for the past eight years and his illness of last summer, Elmer M. Smith, who has carried on a very successful business here as proprietor of the art and picture framing store on Main street, has decided to give up active business for a time, at least, and Waldo H. Farrar, owner of the City cafe, will take over the store and fixtures, intending to completely remodel the place and start an ice-cream parlor, candy kitchen and home bakery. Mr. Smith began the art business on a very small scale, but built up his stock and trade until now there is hardly a city the size of Montpelier which has a more complete stock.

ORANGE.

Do not miss the fine literary program arranged and refreshments, at town hall, April 15, next Friday evening. Begins at 8 o'clock. Admission only 15 cents. Ladies will please bring cake.

WILLIAMSTOWN.

An increase in pension has been allowed John Lynde of this place at the rate of \$20 per month, beginning March 19, 1910.

Ignorant Unbeliever.

The late Nell Burgess used to clinch with an anecdote his claim that atheists were always ignorant.

"A coarse, swaggering fellow," he would begin, "declared in a barber shop: 'I don't believe in no hereafter. You live and die and that's the end of you.'"

"Why, you must be a Unitarian," George, the barber said.

"Hut, not me," was the reply. "I'm too fond of me meat for that."—Washington Star.

The Demon of the Air

is the germ of la grippe, that, breathed in, brings suffering to thousands. Its after effects are weakness, nervousness, lack of appetite, energy and ambition, with disordered liver and kidneys. The greatest need then is Electric Bitters, the splendid tonic, blood purifier and regulator of stomach, liver and kidneys. Thousands have proved that they wonderfully strengthen the nerves, build up the system and restore health and good spirits after an attack of grippe. If suffering, try them. Only 50¢. Perfect satisfaction guaranteed at the Red Cross Pharmacy.

To feel strong, have good appetite and digestion, sleep soundly and enjoy life, use Burdock Blood Bitters, the great system tonic and builder.

Itch! Itch! Itch!—Scratch! Scratch! The more you scratch the worse the itch. Try Doan's Ointment. It cures piles, eczema, any skin itching. All druggists sell it.

A lax liver leads to chronic dyspepsia, and constipation—weakens the whole system. Doan's Regulator (25 cents per box) corrects the liver, tones the stomach, cures constipation.

Cures baby's croup, Willie's daily cuts and bruises, mamma's sore throat, grandma's lameness—Dr. Thomas' Electric Oil—the great household remedy.

Distinction!

Young men who know good clothes and are not satisfied with the commonplace, owe themselves the duty of investigating

THE L SYSTEM

Clothes. In these garments you will find all you expect, in style, fabric, tailoring—originality.

You will find them better than the clothes you thought were best.

The L System Clothes are the preference of young men because they stand the "eye test" of style and fit—the "acid test" of wear and the "price test" of value.

We are here to show you

SUITS

from \$7.50 to 22.50.

Also Furnishings and Shoes at rock bottom prices.

The Smith Co.

HANCOCK.

Jesse McGivney is able to be out after his recent illness.

George Ford is confined to the house with an attack of grippe.

Arthur Miller, who was threatened with pneumonia, is slightly better.

Will Church is home from his work in Rochester on account of ill health.

Mrs. Nellie Riley of Northfield Falls is visiting at the home of Dana Marsh.

Bessie Manning, who has been at work for Mrs. Harvey Richardson, is now at home.

Stephen Fessenden of Boston has been stopping at the house of J. Church a few days recently.

The W. C. T. U. met with Mrs. D. Martin recently. The topic for reading and discussion was "Peace and Arbitration." A vote was taken to have a baked bean supper in the near future.

George Richardson has returned to Phillips Exeter academy, after spending a few days with his parents.

Charles Flint is in Bristol and Lincoln a few days, visiting his sisters, Mrs. Almon Norton and Mrs. T. Newton.

WASHINGTON.

The Independent Order of Foresters will give a public dance in the school house hall, Friday evening, April 15. Dancing from 9 until 1 o'clock. Ladies are requested to bring lunch baskets. Admission 50 cents per couple.

SOLE INCOME \$1,000.

Yet He Lives at Club and Best Hotels and Travels First-Class.

Worcester, Mass., April 15.—In the superior jury-acted court, Judge F. G. Fessenden ordered that James F. Shaw of Boston and West Manchester, president of the American Street Railway association, pay \$1000 on or before May 2, as an allowance for his wife, Nettie Shaw, to defend the divorce libel Shaw brought some time ago.

The scene of the hearing in this now famous case was shifted from Salem and Boston to Worcester, and at Salem Monday the case will begin, and it is slated to take two weeks.

The story of the alleged flight of Mrs. Shaw and a chauffeur, to California, is recalled by the hearing in Worcester, which was on the motion of E. R. Anderson of Boston counsel for Mrs. Shaw, for an additional allowance of \$2500 with which to prepare the defense to the divorce case.

Some time ago Shaw paid \$1000 on the order of the court for this object. Shaw took the witness stand and said that in Boston he stayed at the Algonquin club and in New York at the Knickerbocker hotel and rode on the high-class trains between Boston and New York, but had no property, and the only salaried position he had was \$1000 a year, as president of the Citizens' Street Railway company, at Newburyport, although he was president, without pay, of the Providence & Fall River Street Railway company, and that now personal advances from friends were his mainstay.

STRIKE AT MILTON.

Union Men Employed at Pulp Mill Went Out Yesterday Morning.

Milton, April 15.—About thirty-five members of the Pulp, Sulphite and Paper Makers' union went out on a strike yesterday morning after a meeting, at which the president of the union, John Nolin, of Fort Edward, N. Y., was present.

Several union men remained at work and about a dozen non-union workmen did not join with the strikers.

It is reported that the mill will be closed down shortly as they make only wood pulp and as the paper mills of the International Paper Co. are not fully running the pulp is not needed at present. No pulp has been shipped from the Milton mill for some time.

ALIENS POUR IN.

Over 7,000 Wait Admission Through Ellis Island.

New York, April 15.—With the arrival of the Italian liner San Giovanni yesterday, the number of immigrants awaiting admission to America through the gate of Ellis Island was increased beyond the 7,000 mark, and if the immigration officers do not guess wide of the mark, the week's business will easily prove a record-breaker. The Ellis Island inspectors yesterday unloaded the aliens from five big ships. These are the Caronia, with 1,517 stowage passengers, the Oceanic, with 1,080, the President Lincoln, with 1,786, the Celtic, which arrived Wednesday night with 1,650 immigrants, and the San Giovanni, which came yesterday morning, with her steerage quarters filled.

G. A. R. DEFIES PASTOR.

Veterans Will Hold Sunday Celebration Though He Objects.

Coxsack, Pa., April 15.—The Rev. P. S. Sherry, pastor of the Cocksack Methodist church, who has taken an active interest in the temperance movement, intends to enforce an object lesson in Sunday observance, it is said. The lesson is to be aimed at the Brandywine post, No. 24, G. A. R., of Cocksack. The preacher declares he will have the veterans arrested, if they attempt to hold a celebration on the Sabbath. But Brandywine post will hold its annual Memorial day services and defy any attempt to stop them.

No Railroad Attorney.

Lincoln, Neb., April 15.—The Nebraska state railway commission has started a movement to influence President Taft against the appointment of any person who has been a railroad attorney to fill the vacancy on the bench of the United States supreme court. The commission is sending letters to the railway commissions of other states, asking them to join in the request.

The Spring Styles.

"If you want to look younger, adopt the new fashions," says Grace Margaret Gould in Woman's Home Companion for April.

Paris says youthful frocks for spring. And Paris has gone to the peasant for its inspiration. The famous fashion-makers are evolving simple gowns, which emphasize the normal waistline, the plain but double skirt and bodices made without the sign of an armhole seam. But this is only one of the many new ideas which Paris is launching upon the fashion world this spring.

Paris also says, in her very next breath, that the double idea is the mode. She is illustrating it in materials and in color combination, and she is telling, not only the fair Parisienne, but the belle Americaine that she must wear double skirts, double blouses and double sleeves—really two frocks at the same time.

"Now both of these dominant French ideas are being reflected in the American fashions for spring. And these are the fashions, of course, which the American woman wants especially to hear about."

But first, before I go into detail, let me just say this: All the new fashions, no matter their charm or no matter their caprice, should really be regarded by the woman, who cares for the artistic in dress, as suggestions rather than laws. Women should remember that it is always possible to get much beauty from a ugly fashion, just as it is possible to get much ugliness from a beautiful fashion. As in all human results, it is the personal element that counts. Therefore, study and strive for that which is most adapted to your own personality and which tends most to make it attractive. That is one of the big secrets which helps the fashionable woman to be fashionably and becomingly dressed."

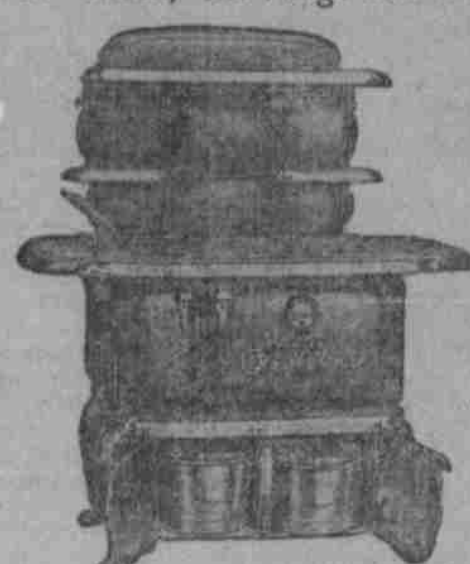

Worse Than Bullets.

Bullets have often caused less suffering to soldiers than the erasms I. W. Harriman, Burlington, Me., got in the army and suffered with forty years. "But Bucklen's Arnica Salve cured us when all else failed," he writes. "It treated, healed, cured, ulcers, boils, burns, cuts, wounds, bruises and piles. 25¢ at the Red Cross Pharmacy."

Notice the Two Hods in the Base of the Crawford Ranges

One is an Ash Hod into which the ashes fall through a chute—all of them—and are easily emptied. The other Hod is for Coal. This feature saves lots of trouble and is patented.

Then there is the wonderful Single Damper (patented); slide the knob to "kindle," "bake" or "check," the range does the rest.

The Oven has cup-joint heat flues that heat it all over alike.

The Patented Grates save coal and trouble.

Ask the Crawford Agent to show you and write us for circular.

CHILD A SUICIDE.

Little Girl Arranged Playthings and Took Poison.

Pittsburg, Pa., April 15.—Failing to reach the high standard in her studies required in her school, Mildred Stewart, 13 years old, of 2709 Carey alley,

South Side committed suicide yesterday by taking carbolic acid. The child had made all arrangements for her death. A note, telling the reason for her act, was found lying beside her body. All of her playthings had been carefully arranged and put away. The letter left by the little girl, in which she tells her troubles, was found by her father, William Stewart.

StopCough

Those hard night coughs of the children! What shall you give them? Just what your mother gave you, and just what her mother gave her! In some families, Ayer's Cherry Pectoral has been the only cough remedy for the coughs and colds of medicine for seventy years. Once in the children. Do as he says. Ayer's Cherry Pectoral. Family, it stays. Keep it on hand.
